

Colorado Transmissions

Colorado Transmissions is locally owned and operated by Barry and Jean Remple since 1998.

Our goal is to provide our customers with honest, top-quality repairs done by skilled technicians in this highly technical field. We are a member of ATRA (Automatic Transmission Rebuilders Association) and the BBB of Colorado Springs. Our Business Standard:

- If we do the work, we will back it up. We stand by applicable warranties and the quality of our service. Repairs are performed to very high standards and using only the best parts.
- Before we even begin the work on your vehicle, we will give you an estimate with regards to the work we feel needs to be done.
- If we note safety or other repair concerns while working on your car, we report them to you. No work is performed without your prior approval.
- Finally, we provide service in a pleasant, courteous manner. We believe old-fashioned service is still very much in style.
